Professional Summary

Detail-oriented and highly motivated individual with strong English communication skills and a growing background in technology, data handling, and AI-related projects. Experienced in working with structured and unstructured data, following technical guidelines, and delivering accurate results independently. Passionate about artificial intelligence, chatbots, image recognition systems, and data annotation processes. Quick learner with strong focus, consistency, and attention to detail.

Skills

- AI Data Annotation & Labeling
- Attention to Detail

- Reading Comprehension
 - Data Entry & Data Verification
 - English Communication
 - Image & Text Classification
 - Following Annotation Guidelines
 - Quality Assurance
 - Research & Analysis
 - Team Collaboration
 - Time Management
-

Technical Skills

- HTML, CSS, JavaScript
 - React.js
 - Node.js Basics
 - MySQL & MongoDB
 - Python Basics
 - Git & GitHub
 - Figma
 - VirtualBox
 - Microsoft Excel & Google Sheets
-

Projects

AI & Data Related Practice

- Worked with structured and unstructured datasets in JSON and CSV formats.
- Practiced organizing, reviewing, and validating datasets for consistency and accuracy.
- Developed strong analytical and pattern-recognition skills through data-focused projects.

Web Development Projects

- Built a YouTube UI clone using HTML and CSS.
- Developed React.js applications with responsive interfaces.
- Created a JavaScript-based e-commerce project inspired by Amazon.

Backend & Database Learning

- Learning backend development using Node.js and MongoDB.
- Worked with SQL databases including MySQL for data storage and querying.

Education

Bachelor's Degree / Diploma / Ongoing Studies

Kenyatta University

Bachelor's Degree in Mathematics and Computer Science

[2022-2026]

Experience

Freelance / Personal Projects

Self-Driven Technology & Data Projects

- Managed multiple personal coding and data-related projects independently.
- Followed detailed instructions and technical documentation carefully.
- Maintained accuracy while handling repetitive and detail-focused tasks.
- Demonstrated ability to learn new tools and workflows quickly.

Languages

- English — Fluent
- Arabic — Beginner

Additional Information

- Open to remote work and flexible schedules.
- Interested in AI, machine learning, chatbots, and image recognition technologies.
- Comfortable working independently with minimal supervision.
- Fast learner with strong adaptability and problem-solving skills.
