

Application For UI/UX Designer

Dear Hiring Team

I am writing to express my interest in the UI/UX Designer role at your company. I bring a strong blend of design and development experience, with skills in HTML, CSS, JavaScript, React.js, Python, and Figma.

I've worked on responsive, user-friendly interfaces for both mobile and web applications using React.js and React Native. I enjoy transforming wireframes into clean, functional designs while collaborating closely with developers and product teams. I am a dedicated team player who believes in creating intuitive digital experiences through thoughtful design.

You can view some of my work and collaborative projects on my GitHub profile, where I regularly share code and contribute to open-source initiatives.

Thank you for considering my application. I look forward to the opportunity to contribute to your team.

Sincerely,

Dickson Wachira Mamithi
